We condemn the killing of all civilians .We condemn suicide bombings by Palestinian militants. We condemn bullying tactics, house demolitions, and random shootings of Palestinians by Israeli soldiers and militant settlers.

We hope and pray that leaders of both sides will be determined to forge an agreement that all people in the area can live peaceably with, and that they will be able to persuade their citizens to accept and abide by the agreement.

We also believe that a real key to a just solution of the problem is the increasing involvement by Jewish people in America and Israel. Links to some of their organizations are found at our web site page.

If nothing else while you are here, please take the time to read the complete text of the **3rd Edition** of "[The Origin of the Palestine-Israel Conflict,](#)" a book published by **Jews for Justice in the Middle East**. We are proud to be able to support their courageous commitment to truth.
