

**Welcome To
Palestine Oasis**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلام عليكم ورحمة الله وبركاته

Welcome

● **Palestine** is engraved only in the memory of the millions of displaced Palestinians. It's a poignant cry and hope of many to rekindle the flame of hope before it evaporates and dissolves into the rivers and oceans. It's not an autobiography or memories, but a humble effort to record its heritage and history before the death of this generation, an era of displaced and stateless people having to write their history in blood.

● This is the story of Palestine, an adorning flower in our bosom, living in the hearts of its sons with the great love and pride. On **15 th MAY, 1948** the flower withered, with the spread horror and sadness which was imposed on them, with vagrancy being moved away with the help force. A visit to the holy land in an unforgettable experience remaining in the soul.

Now he is not lost any more! His name is Ahmad like my name; I named him as lost friend after I have decided to kick him out of the group because he had not invited me and Said to his wedding party, I know that he might forgot that because he was under a great pressure, but after all we are his closest friends as he claimed!!

He is a computer engineer and I have added his pic after he named me (MY BOSS)!!

I love him so much because he is my friend and because he is Ahmad!

ستظل في سماء القدس شامخا مهما أنزلوك التراب إلى الأعماق

حزنت عليك أسوار القدس وقعد باب العامود قلبه الخفاق

God looked around his garden and He found an empty place
He then looked down upon this earth and saw your tired face
He put his arms around you and lifted you to rest
God's garden must be beautiful, He always takes the best
He knew you were suffering, He knew you were in pain
He also knew in Heaven you would never hurt again
He saw the roads were getting rough, and the hills harder to climb
So He closed your weary eyelids and whispered, "Please be mine" It broke our hearts to lose you, but
you didn't go alone
Part of us went with you, the day God called you home.

Jerusalem My Home

Kristo Nicola Hayat

Jerusalem, Jerusalem,
If I forget you Jerusalem may I forget my right hand
which is you
Jerusalem, Jerusalem,
if I forget you Jerusalem may I forget my first joy
which is you
By the waters of the Mississippi
I sat and wept
I sat and wept when I remembered your walls
By the willows that grew there
I hang my flute
I hang my flute never to sing again
And here my friends would ask of me to sing a song
To sing a song
I sang back home
But far from home
far from home how can I sing at all
Minneapolis is a great place
to roam
but Jerusalem will always be my home

[Poetry Al-Quds By Nizar Qabani](#)

Jerusalem our beloved holy city.

Jerusalem, It was in Jerusalem and from Al-Burak western wall, that prophet Mohammed (Peace Be Upon Him) ascended to hearthens. It was built by the ancient Kananites over 45 centuries ago. "Salem" throughout glorious history was distinguished with its over whelming hospitality, never denying anyone its citizenship. In 1948, Jewish forces, led by Menahem Begin, occupied 62% of Jerusalem except the old city, which was occupied in 1967, as well as the eastern part of the city. Arab and Palestinian fighters did their best to defend their land and people. On April 8th, 1948, Abd El-Qader Hussaini became a martyr, together with thousands of martyrs fighting against the fierce British attacks on Jerusalem and the greedy attempts to occupy the land and disperse the residents. Jewish forces, led by Menahem Begin, committed terrible crimes and massacres against villages. The Deir Yassein and Khanyounis massacres are only two examples. The attack continued in different ways to change the structure of 38 villages around Jerusalem alone. Some villages were completely destroyed, or colonized by Jewish settlers.

Archaeological and Historical Buildings.

Jerusalem is rich in its archaeological and historical buildings, especially Islamic ones. It contains about 100 centers, such as mosques, schools, castles mentioned in historical books, some of which cannot even be seen today. All of these traces of the old civilization were found in Jerusalem, although it was never a political center in Islamic eras. Jerusalem is important for all the Christians churches as well as the Muslims for it has the Church of the Holy Sepulchre.

Al-Aqsa Mosque.

Al-Aqsa Mosque, located at the southern part of Al-Haram Al-Shareef esplanade, was built between 705-717 A.D by the Omayyad Caliph Al Waleed Bin Abdul-Malik. In spite of the continuous renovations, that were carried out from time to time, the mosque maintained its genuine Islamic Architecture thus acquiring a universal reputation of uniqueness and beauty. The interior of the mosque consists of seven hallways ornamented with wooden engravings and decorations.

Welcome to my page. Here is how you can get in touch with me.

<> *****HEBRON PENPALS CLUB*****

The Hebron Penpals Club (HPC) aims to bring people together from all over the world to make friendship between individuals and nations and to spread peace all over the world. We hope to learn one another's customs, habits and games, and we may even exchange computer programs. Maybe we'll even end up visiting each other and get to know other countries and cultures first hand. When you have penfriends (penpals), you always feel that there are young men and women in other countries who consider you a true friend. It is exciting to get letters from your friends. Your ideas about foreign countries and people open up when you read about your friends' lives, customs and opinions. Welcome to everyone to come to visit us in Hebron. Hebron is a very famous city in Palestine: it is noted for its hospitality, its grapes, its excellent water, its hand-blown glass, its hand-painted ceramic plates and its hand-embroidered dresses. The people in Hebron like visitors and enjoy talking with foreigners and inviting them to visit in homes. We hope you will come soon, or at least write and let us know about your interests and your city.

أهلاً وسهلاً بك في الدرس الخامس من دروس HTML. في هذا الدرس سوف أقوم بالحديث عن الصور والرسومات وما يتعلق بالتعامل معها، بالإضافة إلى التعريف بأنواع الملفات الرسومية الدارجة في الإنترنت.

لقد اقتصر حديثنا عن الصور حتى الآن على إضافة خلفيات للصفحات، وكان ذلك في [الدرس الثاني](#). أما إدراج الصور ضمن الصفحات نفسها فله حكاية أخرى، أبدأ بروايتها لك الآن.

إن الوسم الرئيسي المستخدم لتعريف صورة ما داخل الصفحة هو وهو وسم مفرد. لكن هل يكفي هذا لإدراج صورة؟ كلا، بالطبع يجب أن نحدد الصورة التي نريدها. لذلك نضيف الخاصية له SRC لتحديد موقع واسم الصورة.

الصورة التالية إسمها thedome.jpg وعندما قمت بإدراجها. كانت الشيفرة الخاصة بذلك هي

والصيغة هذه تفترض أن الصورة موجودة في نفس الدليل الفرعي أو المجلد حيث يتواجد ملف HTML الذي أعمل عليه، وقمت باستدعاء الصورة من خلاله. لكن ماذا لو كانت الصورة في مجلد فرعي آخر؟ حسناً سوف أناقش معك حالتين لهذه المسألة.

الحالة الأولى أن تكون الصورة موجودة في مجلد متفرع عن المجلد الموجود به ملف HTML حسب الشكل التالي:

Observations in Palestine :

The Leonids storm occurred as it was expected on Thursday , 18th 1999. The astronomers in all the world observed the great storms from dark places like the deserts and dark beaches . In *Palestine* seven students , mostly students of Astrophysics class at from Al-Najah university observed the storm from Mount Altur, Near Nablus City ,under clear sky and with naked eyes only.

Results :

The ZHR at the peak recorded by the eight students was as follows:

Name	ZHR
Dr. Kamal Rashid	5800
Ali Mahmoud	4900
Aseel Atoot	3500
Na'el Nofal	6000
Asa'd Ibrahim	4000
Attallah Balalem	5600
Mozafar Atoot	3150
Mohammad Salhy	4400

Leonid Over Palestine

Observations in Jordan :

In Jordan and after the end of the Leonids 99 Conference about 50 astronomers from around the world including **Paletsinte** observed the storm in the freezing cold of Jordan's desert . The participants went to Al-Azraq Desert to observe meteors. At the first night 16-17 very few Leonid meteors appeared (around 20-30 the whole night) and this expected .

The storm occurred at the expected time , but with a higher rate from the expected one. The expected ZHR was 500-1500 , but the storm's ZHR was 7000-10000 and occurred 0204 UT as the Earth passed through the dust stream of comet Tempel-Tuttle. This storm occurred as a result of the dust trail from the comet when it passes by the earth's orbit in 1899 , that it before three revolutions .

Observations in the World :

In all the countries of the world , the astronomers went to the beaches and deserts and dark beaches , but most of them found the skies full of cloud . For example , Over Great Britain clouds blanketed some skies , dimming the display which disappointed the astronomers, and in Northern Ireland it was cloudy and the astronomers could not be able to see anything at all . In Spain the Peak was 1,688 meteors per hour .

Although astronomical calculations had forecast the best view was in the Middle East and Europe, professional and amateur sky watchers in the United States also took up positions on mountain tops, in fields, and just about anywhere away from city lights.

This beautiful photo of a 1999 Leonid streaking by Orion was captured by Diego Rodríguez in Toledo Spain.

WELCOME TO REALITY

INTRODUCTION:-

The basic idea of this website is to make the world realize what is going on in Palestine. The media has been hiding all this, specially from the US residents. But what is right cannot be hidden. My objective is to bring this truth to the world. let us all see what is going on in Palestine. Let us all view the steps taken against the Muslim world. Why I ask? why are Muslims being oppressed today? Aren't they humans too? well we have been quiet for a long time and its time all this ends. I will collect all the information I get in this website. To bring forward the truth and to show what has been hidden. But please keep in mind all the pictures I present may be brutal, but they are nothing compared to what is happening in Palestine. what goes through your mind once you visit this web site, please remember, can be nothing compared to what goes in the minds of the Palestini people. May Allah Subhanahowatallah grant me success.

The Dead Sea, south of the Jordan Valley, is 400 m (1320 ft) below sea level. The level of the Dead Sea is sinking at the rate of nearly a yard a year and could disappear in a few decades, damaging tourism and indirectly draining scarce water supplies in the region. The Dead Sea has been shrinking for decades because much of the water from the Jordan River, which ends in the Dead Sea, has been diverted by the Israelis for use in their region.
